[CAUTION: External Sender]

Dear Dr Rando,

Thank you for agreeing to present a series of webinars for the AICE Neurorehabilitation group. I have now booked in 3 consecutive webinar dates for you:

i. **18 May**
ii. **13 July**
iii. **31 August**

These are all Wednesday nights at 8:30 pm AEST.

To start with setting up the first webinar on 18th May, may I please request you to send me the following at your earliest convenience?

For advertising purposes we will need:

1. Final Topic of the webinar *(**Please keep the title short – up to 50 characters with spaces)*
2. Webinar content/description (1-2 paragraphs)
3. Learning outcomes (1-2 paragraphs)
4. A high resolution headshot of the speaker
5. Speaker's short bio (1-2 paragraphs)

The webinar will also be assessed for continuting professional activity, and for this could you also send us:

6. Speaker's full CV
7. Presentation slides covering the content that will be used for the webinar

We use a user friendly CITRIX platform called **GoToWebinar** for hosting our webinars. You can see a quick video tutorial that shows how it will work:

After the webinar, you are requested to send us an invoice for $350 via email so we can arrange payment for you.

Looking forward to receiving the above for the May webinar.

Many thanks

Kind regards,

Stuti Vaidya

That's awesome Natalie. Thank you so much. I think we should,aim for 3 consecutive webinars

I've cc'ed Stuti Vaidya, the associations co-ordinator in these matters. She will liaise with you regarding details we need to launch the webinars.

Thank you again, and i'm likely to host the event, so will chat with you beforehand to check in.

Kind Regards

Hi Carlo,

That suggestion sounds great.....I really like the 3 series on BPPV idea.

I have checked all of those dates and so far they all work for me for evening lectures. So I am to do the happy to slot into the sessions that you think best, whether that be 3 dates in a row or intermixed throughout the year.

Kind regards,
Nat

[CAUTION: External Sender]

Hi Natalie,

Thanks for the email and loved your suggestions. I meet last night with our committee and we requested a 2 or 3 part series from you on BPPV.

Perhaps
1. BPPV - pathophysiology, testing and management
2. BPPV - atypical variants and mimics
3. BPPV - bone health and other co-morbidities

We have the following dates available

a. 18 May

b. 13 July

c. 31 August

d. 5 October

e. 30 November

If you could the first 2 or 3 of these dates, that would be fantastic

Look forward to your reply

Kind Regards

Hi Carlo,

My apologies for the delay – I would be most happy to give a webinar on that date. Thank you for your kind invitation.

I am currently undecided on a topic however and would appreciate your suggestions.
I do not have a specific research interest myself however I have a lot of teaching resources developed over the last 10-11years at a basic level, competency level and advanced level. Is there currently a gap within your series that I could fill? I feel confident to talk on the rehabilitation / management of any peripheral or central vestibular condition.

The following conditions I thought might be of interest and I have prepared material for at quite an advanced level:

- PPPD
- Vestibular Migraine
- Atypical variants of BPPV / Common mimics
- Mal de Debarquement

I am also giving a presentation to the Australian Physiotherapy Association Conference on BPPV and bone health – this is 30min only presentation so I would need to pad it out a little if this is of interest. I understand if none of this suits and happy to chat about the topic with you.

Kind regards,
Nat

Hi Natalie,

i hope you're well.

I'm not likely to make it to NOTSA or the international VRT conference this years, although it looks good!

On another note, i'm the chair of the clinical neuroscience clinical practice group for the Australian Chiro Assoc and we hold regular webinars for members on clinically and research focussed topics with this field. I would be delighted to have you present on a neuro-vestibular topic. The webinars are normally Tues or Wed 8:30-9:30pm. 45 min presentation and 10-15min Q+A from the audience. You're paid $350 (+GST if applicable). We're looking at sometime in late April or Early May (TBC). Are you interested? Please reply with some availabilities and potential topics

Look forward to your reply
