

2022 TRAUMA CONFERENCE

Jointly held with the Queensland Trauma Symposium

1-4 SEPTEMBER
BRISBANE CONVENTION & EXHIBITION CENTRE

Trauma 2022 Conference Final Program*

1 - 4 September 2022, Brisbane Convention & Exhibition Centre

Pre-Conference
Thursday, 1 September 2022

0900 - 1700 **The TRAPS Course: Trauma, Resuscitation and Procedural Skills Course (2-Day Course from 31 August to 1 September)**
Location: QUT MERF Lab, The Prince Charles Hospital Campus

0800 - 1600 **Interdisciplinary Trauma Forum**
Location: Meeting Room B1, Brisbane Convention & Exhibition Centre

DAY 1
Friday, 2 September 2022

0800-0830 **Official Conference Opening**
Chair: Assoc Prof Dinesh Varma & Prof Martin Wullschlegler
Location: Boulevard Auditorium

0800-0810 **Welcome to Country**
Songwoman Maroochy

0810-0830 **Opening Address**
Shaun Drummond, Acting Director-General, Queensland Health

0830-1000 **Opening Plenary Session 1**
CHANGES, CHALLENGES AND SOLUTIONS IN CURRENT TRAUMA CARE
Chair: Assoc Prof Dinesh Varma & Prof Martin Wullschlegler
Location: Boulevard Auditorium

0830-0850 **International Virtual Keynote**
International experience of training for trauma care
Dr Tarek Razek, McGill University (CAN) (Virtual)

0850-0910 **Keynote**
How to achieve optimal trauma outcomes
Prof Belinda Gabbe, Monash University

0910-0930 **A patient's perspective**
From the other side of the bed... a patient's perspective on change
Mr Darryl O'Callaghan, Multi-Trauma Survivor and Business Professional

0930-1000 **Celebrating 25 years of the Australasian Trauma Society**
Moderated by Helen Jowett, President, Australasian Trauma Society
Past: Prof Ian Civil and Trish McDougall
Present: Michael Handy and Dr Savitha Bhagvan
Future: A/Prof Grant Christey and Helen Jowett

Morning Tea
Location: Boulevard Auditorium Foyer

1030 - 1215	Concurrent Session 1 RESUSCITATION Chair: Alaina Campbell & Assoc Prof Dan Ellis Location: Boulevard Auditorium	1030 - 1215	Concurrent Session 2 MENTAL HEALTH, PSYCHOSOCIAL AND ALLIED HEALTH IN TRAUMA CARE Chair: Jacelle Warren & Michelle Jeffress Location: Meeting Room B1	1030 - 1215	Concurrent Session 3 SURGICAL + PERIOPERATIVE TRAUMA Chair: Prof Zsolt Balogh & Dr David Lockwood Location: Meeting Room B2	1030 - 1215	Concurrent Session 4 Free Papers Chair: Michael Handy & Andrea Herring Location: Meeting Room B3
-------------	----------------------------------------------------------------------------------------------------------------------------------------	-------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	----------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------------------------------------------------------------------------------------------------------------------------

1030-1045	Advances in Trauma Resuscitation Prof Michael Parr, Liverpool Hospital	1030-1045	Screening for Mental Health Disorders after serious injury: Can we make a difference? Dr Tony Joseph, University of Sydney	1030-1045	Penetrating chest trauma Dr Rebecca Schroll, Auckland City Hospital (NZ)	1030-1040	Temporal proteomics of human cerebrospinal fluid reveals novel differentially-regulated proteins after severe traumatic brain injury Dr Bridgette Semple, Monash University
-----------	----------------------------------------------------------------------------------	-----------	--------------------------------------------------------------------------------------------------------------------------------------	-----------	------------------------------------------------------------------------------------	-----------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

1045-1100	Anticoagulation Reversal in Trauma Care Dr Michelle Spanevello, Royal Brisbane and Women's Hospital	1045-1100	Can hand therapists enable return to occupational performance following distal radius fracture? Current clinical practise in the Australian context: A national survey. Terra Bredy, University of Queensland	1045-1100	Surgical Stabilization of Rib Fracture - Auckland City Hospital experience Dr Savitha Bhagvan, Auckland City Hospital	1040-1050	SAFEST study - Soft collar For cervical Spine immobilisation patient experiences and outcomes: a single centre mixed methods study Fiona Jennings, Princess Alexandra Hospital
-----------	---------------------------------------------------------------------------------------------------------------	-----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	---------------------------------------------------------------------------------------------------------------------------------	-----------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

1100-1115	What are the most important questions in trauma transfusion? Prof Michael Reade, University of Queensland	1100-1115	What is Trauma Informed Care in Practice? Practical application and benefits of Trauma Informed Care Antonia Solomon, Children's Health Queensland	1100-1115	Diagnostic challenges and management in penetrating abdominal trauma Dr Jodie-Kate Williams, National Critical Care and Trauma Response Centre	1050-1100	Post-traumatic amnesia and perceived independence following traumatic brain injury Emma Wallis, Alfred Health
-----------	---------------------------------------------------------------------------------------------------------------------	-----------	--------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	----------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	-------------------------------------------------------------------------------------------------------------------------

1115-1130	What impact would providing fresh whole blood to trauma patients have on Australia's blood supply? Denese Marks, Red Cross Lifeblood	1115-1130	Paramedics responding to trauma Sandra Garner, Queensland Ambulance Service	1115-1130	Bleeding Pelvic Fractures - current evidence in management A/Prof Joseph Mathew, The Alfred Hospital	1100-1110	Can a new ward environment and intensive allied health staffing model enhance therapeutic opportunities in trauma care? Dr Christina Ekegren, Monash University
-----------	------------------------------------------------------------------------------------------------------------------------------------------------	-----------	---------------------------------------------------------------------------------------	-----------	----------------------------------------------------------------------------------------------------------------	-----------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------

1130-1145	Airway management pitfalls in injured patients. Data from the Binational Airway Registry Dr Sally McCarthy, Prince of Wales Hospital (Virtual)	1130-1145	Co-designing and implementing an electronic psychosocial wellness screen following paediatric trauma Assoc Prof Bronwyn Griffin, Griffith University and Queensland Children's Hospital	1130-1145	Foley Catheter Balloon Tamponade for Actively Bleeding Wounds Following Penetrating Neck Injury is an Effective Technique for Controlling Non-Compressible Junctional External Haemorrhage Dr Victor Kong, Auckland City Hospital (NZ)	1110-1120	Travelling for treatment: Serious injury and service use in metropolitan and regional Victoria Jemma Keeves, Monash University
-----------	----------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	------------------------------------------------------------------------------------------------------------------------------------------

1145-1200	Massive transfusion practice and outcomes in trauma: Update from the Australian and NZ Massive Transfusion Registry Prof Erica Wood, Monash University	1145-1200	Intimate Partner Violence Dr Bharti Khurana, Trauma Imaging Research and Innovation Center, Harvard Medical School (Virtual)	1145-1200	Timing and priorities for aortic injuries Dr Ian Campbell, Brisbane Vascular	1120-1130	National Collaborative: Rehabilitation after major trauma injury Katrina Hutching, Health Quality and Safety Commission
-----------	------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------	----------------------------------------------------------------------------------------------------------------------------------------	-----------	----------------------------------------------------------------------------------------	-----------	-----------------------------------------------------------------------------------------------------------------------------------

						1130-1140	Ageing with traumatic injury: Australian health service and policy perspectives Dr Christina Ekegren, Monash University
						1140-1150	Early and Intensive therapy for hospitalised trauma patients improves hospital outcomes and bed flow Lara Kimmel, The Alfred, Monash University
1200-1215	QUESTION / DISCUSSION TIME	1200-1215	Q&A	1200-1215	Q&A	1150-1200	An increased intensity allied health model of care may improve hospital-based outcomes of patients with traumatic spinal fractures managed in thoraco-lumbar spine orthoses Asher Kirk, The Alfred Hospital, Monash University
						1200-1215	Q&A
1215 - 1315	Lunch Location: Boulevard Auditorium Foyer						
1235-1315	Australasian Trauma Society Annual General Meeting Location: Boulevard Auditorium						
1315-1500	Concurrent Session 5 MAJOR INCIDENTS AND MASS CASUALTY EVENTS Chair: Kevin Henshall & Sarah Pearce Location: Boulevard Auditorium	1315-1500	Concurrent Session 6 REHABILITATION POST TRAUMA Chair: Dr Lara Kimmel & Melissa Webb Location: Meeting Room B1	1315-1500	Concurrent Session 7 TRAUMA NURSING Chair: Kate Dale & Fiona Jennings Location: Meeting Room B2	1315-1500	Concurrent Session 8 Free Papers 2 Chair: Prof Michael Schuetz & Dr David Read Location: Meeting Room B3
1315-1330	Trauma Preparedness Study Prof Belinda Gabbe, Monash University	1315-1330	COMBAT: a package of care improving outcomes in patients with rib fractures Dr Maria Brand, Middlemore Hospital (NZ)	1315-1330	The modified primary – the challenges of Aeromedical Retrieval of trauma patients from rural and remote settings Renee Bolot, LifeFlight Retrieval Medicine	1315-1325	Systematic review on the incidence of postinjury multiple organ failure Ryan Ting, University of New South Wales
1330-1345	UK - Clinical Guideline for Major Incidents and Mass Casualty Events Justine Lee, University Hospitals Birmingham, Stephen Groves, Emergency Preparedness Resilience and Response, NHS, England (Virtual)	1330-1345	Use and effectiveness of telehealth for rehabilitation trauma Dr Christina Ekegren, Monash University	1330-1345	Trauma Nurse Case Management: facilitating optimal & efficient outcomes for the patient and the service Nicole Kelly, Royal Adelaide Hospital	1325-1335	Limb salvage in the era of CTA and endovascular surgery: a 25 year review of popliteal artery injuries in Western Australia Tommy McKitterick, Bunbury Regional Hospital, Royal Perth Hospital
1345-1400	Medical Response in the Warm Zone Matthew Meister, Queensland Ambulance Services	1345-1400	Early In-reach Rehabilitation – Implementing an in-reach rehabilitation program in a tertiary hospital Dr Teresa Boyle, Gold Coast University Hospital (Virtual)	1345-1400	Navigating a journey from Trauma Victim to Trauma Survivor Matthew Scott, Gold Coast University Hospital	1335-1345	The Search for Guidance; A Scoping Review of Splenic Artery Embolization in Blunt Splenic Trauma Dr Daniel Flory, Gold Coast Health
1400-1415	Ballistic injuries based on MSF experience Dr Jan Swinnen, Westmead Hospital	1400-1415	5 years of falls on the inpatient spinal injuries unit Kathryn Marshall, Princess Alexandra Hospital	1400-1415	Phone call follow-up for trauma patients Alicia Jackson, Royal North Shore Hospital	1345-1355	Increasing Frequency of penetrating trauma and Knife Crime: The Perspective from an Australian Major Trauma Centre Trauma over a four-year period Dr Steven Chiang, Royal Adelaide Hospital Trauma Service
1415-1430	Chemical and biological attack – clinical management overview and current national policy Assoc Prof David Heslop, University of New South Wales	1415-1430	BE-FIT Better Functional Outcomes in Trauma Prof Belinda Gabbe, Monash University	1415-1430	Trauma verification onsite vs virtual; preparing for a review Dr Rebekah Ogilvie, Canberra Hospital and Health Services	1355-1405	Massive Transfusion Protocol (MTP): Audit and Quality Improvement at a Non-Trauma Hospital Dr Tamara Johnson, Orange Base Hospital, University of Sydney
1430-1445	Paediatric response - Manchester Arena Attack 2017 Dr Peter Hulme, Manchester University NHS Foundation Trust (UK) (Virtual)	1430-1445	Pain management strategies in the trauma patient. Navigating the transition from acute to chronic pain Melanie Proper NP, Royal Brisbane and Women's Hospital	1430-1445	Trauma Nurse Credentialing & Certification Pathway: what does it take to be a trauma nurse? Helen Jowett, Royal Children's Hospital	1405-1415	Implementing and sustaining Point of Care ROTEM into a trauma activation protocol: A Mixed Methods Study Kerin Walters, Gold Coast University Hospital
1445-1500	Q&A	1445-1500	QUESTION / DISCUSSION TIME	1445-1500	Q&A	1415-1425	Tissue oxygen extraction in a porcine model of trauma and haemorrhagic shock subsequent to delayed resuscitation Dr Shaun Pratt, University of Queensland
						1425-1435	Recovery of platelet aggregation function following removal from the traumatised vascular milieu Raushan Lala, University of Queensland, Jamieson Trauma Institute
1445-1500	Q&A	1445-1500	QUESTION / DISCUSSION TIME	1445-1500	Q&A	1435-1500	Q&A
1500-1530	Afternoon Tea Location: Boulevard Auditorium Foyer						
1530-1730	Plenary Session 2 ADVOCACY, CAREER PATHWAYS AND SUCCESSION PLANNING FOR TRAUMA SPECIALISTS Chair: Prof Michael Schuetz & Dr John Crozier Location: Boulevard Auditorium						
1530-1730	International perspective Prof Chris Moran, National Strategic Incident Director, NHS England (Virtual)						
1530-1730	Careers in Trauma Nursing Heidi Hotz, Trauma Program Manager, Department of Surgery, Cedars-Sinai Medical Center (US) (Virtual)						
1530-1730	The next generation, family, career, opportunities, and the sub-specialty of trauma care Dr Zhenya Welyczko, Princess Alexandra Hospital						
1530-1730	Advocacy, career pathways and succession planning for Trauma Specialists Prof Michael Kidd, Deputy Chief Medical Officer and Principal Medical Advisor, Australia Government Department of Health (Virtual)						
1530-1730	Dr Chris Morrey, Australian Orthopaedic Association						
1530-1730	Panel discussion Prof Ian Civil, Helen Jowett, and/or Heidi Hotz, Dr Zhenya Welyczko						

Welcome Reception
Location: Boulevard Auditorium Foyer

1730- 1900

DAY 2
Saturday, 3 September 2022

Plenary Session 3
HIGH PERFORMING TEAMS
Chair: Prof Ian Civil
Location: Boulevard Auditorium
0830 - 1000

High Performing Teams - a series of talks & panel discussion
Facilitated by Prof Victoria Brazil, Gold Coast University Hospital

- The Behaviours of high performing teams - Dr Andrew Donohue, Anaesthetist GCUH, Retrieval Doctor, LifeFlight
- The Culture of high performing teams - Dr Eve Purdy, Emergency Physician, GCUH, Anthropologist
- The Physiology of high performing teams - A/Prof Robb Orr, Director, Bond Tactical Research Unit**
- The Heart of high performing teams - Liz Crowe, Staff Wellness Lead, RBWH
- Coaching high performing teams, Prof Victoria Brazil, Emergency Physician, Medical Director, GCUH simulation service

0830-1000

Morning Tea
Location: Boulevard Auditorium Foyer

1030 - 1215	Concurrent Session 9 TRAUMA CARE IN AUSTERE ENVIROMENTS Chair: Dr Tony Joseph & Alicia Jackson Location: Boulevard Auditorium	1030 - 1215	Concurrent Session 10 TRAUMA DATA, ANALYTICS AND PREVENTION Chair: Prof Michael Reade & Dr Cameron Palmer Location: Meeting Room B1	1030 - 1215	Concurrent Session 11 PAEDIATRIC TRAUMA Chair: Tona Gillen & Helen Jowett Location: Meeting Room B2	1030 - 1215	Concurrent Session 12 Free Papers 3 Chair: Dr Kate Martin & Assoc Prof Dinesh Varma Location: Meeting Room B3
--------------------	------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	----------------------------------------------------------------------------------------------------------------------------	-------------	--------------------------------------------------------------------------------------------------------------------------------------

1030-1045	Rescue in austere environments Brad Bamber, Ornge Ambulance Service Toronto (Canada) (Virtual)	1030-1045	Value and importance of the standardisation of patient outcomes data and outcome measures in trauma/injury Shannon Dias, Jamieson Trauma Institute	1030-1045	Paediatric Post Traumatic Amnesia Assessment and Management Jillian Fitzgerald, The Royal Children's Hospital Melbourne	1030-1040	Trauma care consistency - the holy grail of trauma system development Prof Ian Civil, NZ National Trauma Network
1045-1100	Bringing life saving knowledge and skills to remote teams Matt Pepper, Tacmed Australia	1045-1100	Prevalence of psychoactive drugs in trauma patients presenting to an Emergency Department Siobhan Isles, National Trauma Network, New Zealand	1045-1100	Mauled by a Mastiff: Prevalence and psychological impact of dog bites in paediatrics QLD Dr Halia O'Shea, Gold Coast University Hospital, and Antonia Solomon, Children's Health Queensland	1040-1050	Accurate completion of Tertiary Trauma Survey for inpatients at a non-trauma centre following significant trauma Dr Naji Ghamri, Middlemore Hospital
1100-1115	Prolonged field care Nicole Foster, International SOS (Virtual)	1100-1115	Implementing the Queensland Trauma Data Collection Ben Gardiner, Gold Coast University Hospital	1100-1115	Lawn mower orthopaedic injuries in children Dr Sebastien Stephens, Queensland Children's Hospital	1050-1100	Development, implementation and patient-driven evaluation of the Princess Alexandra Hospital trauma nurse practitioner-led outpatient clinic Fiona Jennings, Princess Alexandra Hospital
1115-1130	Preparing for Trauma on Expeditions Steve Whitfield, Griffith University, Explora Medical Media	1115-1130	The Influence of data on safety policy, regulation and enforcement: A case study of electric personal mobility devices in QLD Prof Kirsten Vallmuur and Dr Tanya Smyth, Jamieson Trauma Institute	1115-1130	Paediatric injury patterns during COVID: how it literally took kids for a ride Sarah Adams, Sydney Children's Hospital Randwick	1100-1110	Emergency Care Out There: Investigating the Role of the Rural Emergency Responder Network in South Australia Caitlin Skinner, Flinders University
1130-1145	Responding to a Marauding Terrorist Attack: A London Perspective Georgie Fraser, NHS (Virtual)	1130-1145	AAA - IP National Road safety strategy Craig Newland, Australian Automobile Association	1130-1145	The implementation of a solid organ injury pathway based on ATOMAC guidelines Matthew Sawyer, Starship Childrens Hospital	1110-1120	Unique aspects of dealing with Road Trauma in regional communities Christine Smith, Injury Matters
1145-1200	How do we prepare and respond to trauma in austere environments? Dr Andrew Pearce, MedSTAR Retrieval Service, South Australia (Virtual)	1145-1200	Impact of road traffic data and influence on injury prevention policy Dr John Crozier, Liverpool Hospital	1145-1200	The complexities of pre-hospital paediatric trauma care Dr Claire Bertenshaw, Queensland Ambulance Service	1120-1130	Managing chest trauma in a regional setting: Auditing chest trauma management and establishing a Chest Injury Protocol (ChIP) in a regional hospital Dr Thomas Warburton, University of New South Wales, Prince of Wales Hospital
						1130-1140	Emergency medical services on-scene time for major trauma patients in New Zealand Prof Bridget Kool, University of Auckland
						1140-1150	Evaluating ambulance road transport protocols for serious injury in New South Wales in 2019-20: a data-linkage and geospatial study Assoc Prof Michael Dinh, ACI Institute of Trauma and Injury Management, University of Sydney
1150-1200		1150-1200		1150-1200		1150-1200	The role of advocacy in creating change and reducing the impact of road trauma in Australia Christine Smith, Injury Matters
1200-1215	QUESTION / DISCUSSION TIME	1200-1215	QUESTION / DISCUSSION TIME	1200-1215	QUESTION / DISCUSSION TIME	1200-1215	QUESTION / DISCUSSION TIME

Lunch
Location: Boulevard Auditorium Foyer

1315-1445	Concurrent Session 13 TRAUMA EDUCATION AND TRAINING Chair: Prof Michael Muller & Prof Michael Reade Location: Boulevard Auditorium	1315-1445	Concurrent Session 14 PREHOSPITAL + RETRIIVAL TRAUMA SPECIALISTS Chair: Natasha Adams & Claire Bertenshaw Location: Meeting Room B1	1315-1445	Concurrent Session 15 TRAUMA IN THE GERIATRIC POPULATION Chair: Michael Handy & Kevin Henshall Location: Meeting Room B2	1315-1445	Concurrent Session 16 Free Papers 4 Chair: Assoc Prof Dinesh Varma & Rebekah Ogilvie Location: Meeting Room B3
1315-1330	Computer assisted trauma resuscitation Dr Mark Fitzgerald, Alfred Hospital	1315-1330	Prehospital burns management Julie Hughes, Queensland Ambulance Service	1315-1330	Older trauma screening tool – can we reduce under-triage in older patients? Dr Adam Mahoney, Royal Hobart Hospital	1315-1325	Study of Road Trauma Evidence and Data - SORTED Siobhan Isles, Major Trauma National Clinical Network
1330-1345	3D immersive training for paramedic students Shonel Hall, Queensland University of Technology	1330-1345	Evidence based extraction - the trauma gap Joff van Ek, National Rescue and Critical Care Group	1330-1345	Falls in the elderly; expect the unexpected Dr Martie Botha, Royal Adelaide Hospital	1325-1335	Developing the injury Treatment and Rehabilitation Accessibility Queensland Index (ITRAQI): Pilot for Moderate-to-Severe Traumatic Brain Injury Jacelle Warren, Jamieson Trauma Institute
1345-1400	Making feedback more than just noise Dr Natalie May, NSW Ambulance Aeromedical	1345-1400	Building Contemporary Trauma Care Systems in Paramedicine Ben Meadley, Monash University	1345-1400	Major Trauma in the elderly: can the presence of frailty predict outcomes? Dr Tony Joseph, University of Sydney	1335-1345	Australian pre-hospital trauma triage: Current approach and opportunities for development Adam Rolley, Queensland Ambulance Service

1400-1415	Stop the Bleed program Prof Kenji Inaba, University of Southern California (Virtual)	1400-1415	Cultivating continuity in trauma care - from scene to recovery Jessica Forbes, QAS	1400-1415	Palliative Care in Trauma Dr Bill Lukin, Royal Brisbane and Women's Hospital (Virtual)	1345-1355	Accuracy of injury coding in a trauma registry Matthew Sawyer, Starship Childrens Hospital
1415-1430	The Military Training Gap Dr Adam Mahoney, Royal Hobart Hospital	1415-1430	Hillcrest event Dr Lucy Barnett, Royal Hobart Hospital	1415-1430	Imaging of Silver Trauma Patients Dr Elizabeth Dick, Queen Mary Hospital, London (UK) (Virtual)	1355-1405	Surveying Burn Care Specialists' Views Towards End-of-Life Decision-Making Dr Lincoln Tracy, Monash University
1430-1445	QUESTION / DISCUSSION TIME	1430-1445	Q&A	1430-1445	Q&A	1405-1415	Exploring Clinicians' Decision-Making Processes about End of Life Care After Burns: A Qualitative Interview Study Dr Lincoln Tracy, Monash University
1445-1515	Afternoon Tea Location: Boulevard Auditorium Foyer						
1515-1540	Gordon Trinca Lecture by Dr Kate Martin Chair: Helen Jowett Location: Boulevard Auditorium						
1540-1700	Plenary Session 4 TRAUMA SYSTEMS FROM AROUND THE WORLD Chair: Assoc Prof Grant Christey & Nicole Kelly Location: Boulevard Auditorium						
1540-1600	The Argument for a National Trauma Performance Audit Program in Canada Dr David Evans, Vancouver General Hospital (CAN) (Virtual)						
1600-1620	The impact of trauma verification on a trauma system Prof Zsolt Balogh, John Hunter Hospital						
1620-1640	Older Trauma within the London Major Trauma System Dr Elaine Cole, Queen Mary University of London (UK) (Virtual)						
1640-1700	Why location matters – exploring the role of spatial epidemiology in trauma system evaluation Dr Adam Mahoney, Royal Hobart Hospital						
1900-2330	Award Ceremony and Dinner Location: Boulevard Room						
DAY 3 Sunday, 4 September 2022							
0830 - 0930	Father's Day Breakfast Location: Boulevard Auditorium Foyer						
0930-1130	Plenary Session 5 INNOVATION, EMERGING TRENDS AND SOLUTIONS IN TRAUMA CARE - CASE REVIEWS AND DEBATES WITH THE MULTIDISCIPLINARY TEAM <i>Interactive case discussion with multi-disciplinary expert panel and snapshot presentations</i> Chair: Prof Martin Wullschleger & Dr Valerie Malka/Dr Mary Langcake Location: Boulevard Auditorium						
	Prehospital challenges - Point-of-care innovations Dr Daniel Bodnar, Queensland Ambulance Service, Royal Brisbane and Women's Hospital						
	Telehealth Technologies Daniel Best, Queensland Health						
	Resuscitation advances - Decision making support with technology and artificial intelligence A/Prof Joseph Mathew, The Alfred Hospital						
	Quality or Quantity - what is the goal for trauma training? Dr Rebecca Schroll, Auckland City Hospital						
	Trauma training with Mixed-Reality (Game or Reality?) Sorin Oancea, Queensland University of Technology						
	Conference Close Assoc Prof Dinesh Varma & Prof Martin Wullschleger						

*Program is subject to change without notice
