Dear Paulie

**Re: MI-CRE Project Incubator Grant**

Thank you for your project proposal *“Scoping review of data and methods used in studies that estimated Covid-19 vaccine effectiveness in reducing cause-specific and all-cause mortality during the SARS-CoV-2 pandemic”*, presented as part of the NHMRC Centre of Research Excellence in Medicines Intelligence (MI-CRE) Project Incubator scheme on 27 April 2022.

I am pleased to inform you that you have been awarded a MI-CRE Project Incubator grant of \$22,000 to contribute to the costs of this project. These funds will be dispersed as needed and any expenditure will need to conform to existing NHMRC funding guidelines and those of your institution.

As part of the award conditions, you will be required to present an update on your project each year at one of the MI-CRE Incubator sessions and at completion of the project. We also ask that you acknowledge the funding support of the MI-CRE in any publications or presentations that arise from this work. The MI-CRE is funded by an NHMRC Centre of Research Excellence grant (ID: 1196900).

Congratulations on behalf of the MI-CRE Investigators and we look forward to hearing about your progress in this work.

Sincerely,

Professor Sallie Pearson

Director, NHMRC Centre of Research Excellence in Medicines Intelligence
