EVIDENCE-BASED PRACTICE WORKSHOP 24th October
9:00am – 5:00pm Centre for Research in Evidence-Based Practice Faculty of Health Sciences and Medicine, Bond University The Centre for Research in Evidence-Based Practice and The Faculty of Health Sciences and Medicine, Bond University on the Gold Coast are pleased to invite you to their upcoming interactive workshop designed... [Continue Reading]

Mission Statement

CREBP will undertake research about the processes and implementation of Evidence-Based Medicine, in order to more intelligently and efficiently close the gaps between best available evidence and current clinical practice. The effective integration of research into practice will contribute to the health and healthcare of Australians. This research will enhance Bond University as a leading private and independent University.

Objective

- To undertake research to close the gaps between research-practice and clinical monitoring
- To lead and facilitate the Teaching and Learning of Evidence-Based Medicine
- To support and extend international collaborations and promote the interchange of researchers in and out of Australia
- To develop young researchers for sustained research programs
