

# Faculty of Health Sciences & Medicine

## Research Overview

Vision

Using evidence to make a meaningful difference to the health and performance of individuals, communities, and health economies

Values

Integrity

Innovation

Translation

Collaboration

Pillars of research strategy

Research capacity building

Progressive Higher Degree by Research Program

Niche Centres of Excellence

## Research Capacity Building

### Research-active staff: stage of career

- 72 PhD students (93 staff)
- 19% of staff are early career researchers

### Women in STEMM

- 60% of PhD students
- 67% of Early Career Researchers
- 57% of all Research-Active Staff

smarshal@bond.edu.au

Early Career Researcher & Woman in STEMM

Dr Skye Marshall BNutr&Diet(Hons) (2010), PhD (2016)

Partner with industry to generate and translate evidence which supports reinvestment in sustainable multidisciplinary healthcare systems to ultimately improve the health-related quality of life of Australians

Innovation Connections  
Grant

Dept Industry, Innovation, &  
Science

Cancer Council  
Queensland

Bond University Grant

Multidisciplinary care in  
bariatric surgery

Nutraceuticals as  
complementary cancer  
treatment

Keeping older adults out  
of hospital:  
family, telehealth

## Niche Centres of Excellence Nutrition & Dietetics Research Group (BUND)

Evidence-based nutrition & dietetic practice for:

- telehealth for hospital to home
- an ageing population
- improved cancer outcomes
- environmentally sustainable foodservices
- improved sports performance
- multidisciplinary approach to address stigma in healthcare

**Lead: Prof. Liz Isenring**

## Niche Centres of Excellence

### Institute for Evidence-Based Health Care

pglaszio@bond.edu.au

Lead: Prof Paul Glasziou

- Antibiotic resistance
- Overdiagnosis & research waste

### Clem Jones Centre for Regenerative Medicine

honeill@bond.edu.au

Lead: Prof Helen O'Neill

- Stem cell biology
- Macular degeneration

### Tactical Research Unit

rorr@bond.edu.au

Lead: Dr Rob Orr

- Active shooting specialist tactical response police
- Body armor and law enforcement

Associate Dean of Research  
A/Prof Kevin Ashton
