Professor Derek Carson
Dean of Society and Design Faculty
BOND UNIVERSITY
AUSTRALIA

Dear Sir,

ACKNOWLEDGE YOUR BRIEF VISIT WITH STAFF AND STUDENTS TO KIRA KIRA

Office of Premier Makira Ulawa Province would like to extend sincere gratitude to you, staff and students of Society and Design faculty of Australian Bond University for your visit to Kira Kira, and the opportunity to meet with me and members of my executive government.

My Executive government is pleased to learn that the partnership and collaboration between Makira Ulawa Province and Bond University Faculty of Society and Design is given a special recognition among elite Australian National Universities in 2018, and that Design and society faculty has won a distinguish Award. Congratulation to Bond University Society and Design faculty for this fine achievement; my Provincial Government is very pleased to be able to support your faculty achievement in a very small way.

The partnership and collaboration initiative between Bond University Medical and Society and Design faculties and Makira Ulawa Province 2012 – 2019 Medical students and Design and Society 2015 – 2019 is highly supported by my Executive government and the local communities in Makira. The continuous deployment of Bond University Medical students at Kira Kira Hospital; design of Kira Kira Market project, Kira Kira Master Plan, Huro Master Plan and Pawa School Master Plan concepts by students from Society and Design faculty, my government valued these projects as significant milestone achievements.

The proposed Memorandum of Understanding MOU between our institutions is fully endorse by my office as this will strengthen the partnership and collaboration, and take our relationship to new heights.

Thank you

Yours Faithfully

Stanley S Siapu
Premier
Makira Ulawa Province
